Results-driven Software Developer skilled in Java, Python, and JavaScript for SaaS-based solutions. Experienced in REST API development, automation systems, and cloud platforms (AWS). Adept at building scalable, secure, and AI-driven applications for digital transformation.

SKILLS

Languages: Java, Python, JavaScript, SQL

Frameworks: Spring Boot, React.js, Node.js

Databases: PostgreSQL, MySQL

Cloud Platforms: AWS, Azure

Tools: Docker, Git/GitHub, Postman, Liquibase, Jira, Trello, PowerBI, Figma

Concepts: SaaS Platforms, API Integrations, Automation Systems, AI/ML Tools, Data Visualization

PROFESSIONAL EXPERIENCE

Quality Assurance Engineer, FotonVR

29th Jan 2025 - Present

- Led a QA team of 5 to test and optimize web and mobile applications, ensuring reliability, scalability, and performance.
- Identified and resolved 100+ critical bugs, improving release stability by 40%.
- Collaborated with developers and data teams to align testing cycles with SaaS platform delivery.

Backend Developer Intern, Nextech Infoway Pvt. Ltd.

1st June 2024 - 31st December 2024

- Developed and supported backend services using Java and Spring Boot, working with PostgreSQL for database operations and Liquibase for database version control.
- Collaborated with the development team to test and manage APIs using Postman, while utilizing Docker and Git for containerization and version control in the development workflow.

Java Developer Intern, Valence Datalabs Pvt. Ltd.

22nd January 2024 - 12th April 2024

- Developed and deployed SaaS-based REST APIs using Spring Boot (Java 8+), ensuring scalability and performance optimization.
- Integrated AWS SES for email automation and maintained database schemas via Liquibase on PostgreSQL.
- Collaborated with cross-functional teams to align backend services with business goals and UI/UX requirements.

EDUCATION

Bachelor of Engineering in Computer Science & Engineering

Oct 2020 - June 2024

Gujarat Technological University, Ahmedabad

- Pursued the course with **8.41** CGPA.
- Final Year Project: Post call Transcript Analysis — Implemented NLP and AI-based analysis to extract insights from voice data.

I value quality over quantity and believe in maintaining a healthy work-life balance. I aim to continuously enhance my skills while contributing to the growth and success of the organization.
